

Gregory L. Heileman, Ph.D.

2011–present

Professional Background and Primary Accomplishments

University of New Mexico, Albuquerque, NM

Associate Provost for Curriculum

- Responsibilities include campus-wide student academic success initiatives, curriculum, university advising, curricular and co-curricular assessment, academic program review, institutional accreditation and the office of institutional analytics.
- Worked with other key entities on campus to:
 - Direct the development team that created the software necessary to deliver online degree plans for all UNM undergraduate degree programs (see: <http://degrees.unm.edu>)
 - Create an Office of Student Academic Success at UNM.
 - Create the Center for Teaching Excellence at UNM.
 - Initiate a redesign of the freshman year programs on campus, leveraging the John N. Gardner Institute for Excellence in Undergraduate Education's Foundations of Excellence in the First College Year program.
 - Implement an academic coaching program that involves more than 100 coach volunteers and more than 150 students during the 2012-13 academic year.
 - Coordinate freshmen outreach/coaching and cohort tracking initiatives that contributed to 2.5% and 1.2% increases in freshmen retention, and 0.6% and 2.7% increases in graduation rate in 2012 and 2013, respectively.
 - Coordinate an extensive review of university advising, and develop an action plan that includes adoption of a standard campus-wide computer-based early alert/advising tool.
 - Redesign the UNM Academic Program Review process in order to align it more closely with the HLC Accreditation Criteria, streamline the process as a whole, and lead the design of an online application for completing and submitting APRs and tracking the resulting Action Plans.
 - Coordinate the wider use of a campus-wide computer-based program assessment tool.
 - Establish an enhanced academic IT capability in the Provost's Office.
 - Create the first MOOC at UNM (Web Application Architectures, delivered through the Coursera platform).

2004–2011

University of New Mexico, Albuquerque, NM

Associate Chair & Director of Undergraduate Programs
Department of Electrical and Computer Engineering

- Responsible for all aspects of the undergraduate programs in electrical engineering and computer engineering, including recruiting, advisement, curricula assessment and improvement, and ABET accreditation.

- Successfully navigated the department through the ABET evaluation process and site visits (both electrical engineering and computer engineering programs) in 2005 and 2011.
- Implemented a program assessment process that resulted in significant improvements in efficiency and efficacy.
- Led the department through extensive redesigns of both the computer and electrical engineering programs.

2002–present

University of New Mexico, Albuquerque, NM

Professor, Department of Electrical and Computer Engineering.
Secondary Appointment, Computer Science Department.

1996–2002

University of New Mexico, Albuquerque, NM

Associate Professor, Department of Electrical and Computer Engineering.

1990–1996

University of New Mexico, Albuquerque, NM

Assistant Professor, Department of Electrical and Computer Engineering.

1989–1990

University of Central Florida, Orlando, FL

Visiting Assistant Professor, Department of Computer Engineering.

1988–1989

University of Central Florida, Orlando, FL

Graduate Research Assistant, Department of Electrical Engineering.

1986–1989

University of Central Florida, Orlando, FL

Graduate Research and Teaching Assistant, Department of Computer Engineering.

1985–1986

Isotechnologies Inc., Carrboro, NC

Research Engineer.

1984–1985

University of North Carolina, Chapel Hill, NC

Graduate Research Assistant, Department of Biomedical Engineering and Mathematics.

Education

Ph.D. Computer Engineering, University of Central Florida, Orlando, FL. 1989.

M.S. Biomedical Engineering and Mathematics, University of North Carolina–Chapel Hill, Chapel Hill, NC. 1986.

B.A. Biology, Wake Forest University, Winston-Salem, NC. Cum Laude, 1982.

Honors and Awards

2010

University of New Mexico, School of Engineering, Outstanding Teacher Award.

2009

IEEE Albuquerque Section, Outstanding Educator Award.

2009	University of New Mexico, Department of Electrical & Computer Engineering Lawton-Ellis Award in recognition of exemplary teaching and service.
2005–2008	University of New Mexico, Department of Electrical & Computer Engineering, Gardner-Zemke Professorship.
2001	University of New Mexico, Department of Electrical & Computer Engineering Lawton-Ellis Award in recognition of exemplary teaching and service.
2000	University of New Mexico, Department of Electrical & Computer Engineering Distinguished Teacher Award.
1995	University of New Mexico, School of Engineering junior faculty teacher of the year award.
1992	Associated Western Universities–Department of Energy (AWU-DOE) Faculty Fellowship.
1983	Carolina Lightnin', Professional soccer, American Soccer League, Played extensively in a league that required only five Americans on the field.
1982	U.S. Olympic Festival, South Team, Soccer, Indianapolis, IN.
1981	U.S. Olympic Festival, South Team, Soccer, Syracuse, NY.
1979–1982	NCAA Division I Soccer, Wake Forest University. Four year letterman and starter; Team captain 1979–1981, Team MVP, 1981; All Atlantic Coast Conference, 2nd team, 1981; Collegiate Senior All-star Team, 1982.

Professional Affiliations

1996–present	Senior Member , The Institute of Electrical and Electronics Engineers (IEEE)
2009–2010	Founding Board Member , The ASK Academy (an Engineering Charter School in Rio Rancho, NM).
2000–2004	Board Member , New Mexico Information Technology and Software Association (NMITSA).
2001–2005	Board of Advisors , New Mexico Technology Enterprise Coalition.

Professional Activities

2010–present	Accreditation Board For Engineering and Technology (ABET) Program Evaluator , Engineering Accreditation Commission.
2010–present	Editorial Board , <i>International Journal of Multimedia Intelligence and Security</i> .
1995–2005	Associate Editor , Association for Computing Machinery (ACM) <i>Journal of Experimental Algorithms</i> .

1994–1996

Chairman, Educational Activities Committee, IEEE Albuquerque Section.

Panel Member: National Science Foundation, Networking Infrastructure for Education program, 1995; Ikerbasque, the Basque Foundation for Science, Research Program Reviewer, 2009–present.

Program Chair: Ninth ACM Workshop on Digital Rights Management, Chicago, IL, Nov., 2009 (co-chaired with Hongxia Jin); Eighth ACM Workshop on Digital Rights Management, Alexandria, VA, Oct., 2008 (co-chaired with Marc Joye); ISE '95 Expo, Albuquerque, NM, May, 1995.

Workshop Organizer: Applications of Benford's Law, Santa Fe, NM, Dec. 2007; US-Spain Bilateral Scientific Workshop on Information Science and Related Technologies, Santa Fe, NM, Dec. 2010.

Program Committees: Spring 1993 Computational Science Workshop, Los Alamos National Laboratory; International Conference on Neural Networks, Orlando, FL, June 1994; Forth ACM Workshop on Digital Rights Management, Washington, DC, Oct 2004; First International Conference on Digital Rights Management: Technologies, Issues, Challenges and Systems, Sydney, Australia, Nov 2005; Fifth ACM Workshop on Digital Rights Management, Alexandria, VA, Nov 2005; Sixth ACM Workshop on Digital Rights Management, Alexandria, VA, Nov 2006.

Reviewer: Neural Networks, Computers in Electrical Engineering, Journal of Intelligent Manufacturing, IEEE Transactions on Neural Networks, IEEE Transactions on Systems, Man, and Cybernetics, IEEE Transactions on Biomedical Engineering, IEEE Signal Processing Magazine.

Business Development/Management

2003

Chief Scientist, Elisar Software Corporation, Albuquerque, New Mexico.

1999–2003

CEO, Elisar Software Corporation, Albuquerque, New Mexico. Co-founded Elisar Software Corporation in 1999, led the company through two venture capital financing rounds totaling \$3,400,000, and the growth of the company from the original two founders to 16 employees.

1997–present

Co-founder and Partner, AHS Engineering Services, LLC, Albuquerque, New Mexico. AHS provides consulting services in the areas of data analysis and software development.

Community Service

2000–present

Board Member, New Mexico Rush Soccer Club. Served as President since the founding of the club, which has grown to national prominence while the club's annual budget has grown from ~\$60,000 to ~\$500,000, including ~\$60,000 in annual scholarships to support economically disadvantaged players.

1996–present

Soccer Coach, Current License: United States Soccer Federation B License.

Club, Coached a number of teams in the New Mexico Rush organization. These teams have won five state championships, have advanced to the Regional semifinals three times, twice to the Regional finals, and have won one Regional championship.

1999–2004

State of New Mexico, New Mexico Youth Soccer Association (NMYSA) Olympic Development Program (ODP) coaching staff.

Advisement

Ph.D. Students — (Major Professor):

1. Craig Vineyard, in progress (post comprehensive exam)
2. Ed Nava, in progress (post comprehensive exam)
3. Viswanath Nandina, in progress
4. Ahmad Slim, in progress
5. Chris Lamb, Dissertation: "Information Protection in Content-centric Networks." Graduation: Dec. 2012.
6. Pramod Jamkhedkar. Dissertation: "Usage Management." Graduation: Aug. 2011.
7. Alexandre Franco. Dissertation: "Resource Allocation of The Human Brain: A Competitive Equilibrium Approach." Graduated: Dec. 2009.
8. Tu-Thach Quach. Dissertation: "Information Similarity Metrics in Information Security and Forensics." Graduated: Dec. 2009.
9. Sinan Al-Safar. Dissertation: "Semantic Information Valuation." Graduated: May 2009.
10. Henry Jerez. Dissertation: "A New Approach to Complex Object Distributed Storage Distribution and Identification." Co-advised with Ramiro Jordan. Graduated: May 2005.
11. Wenbin Luo. Dissertation: "Characterizing the Behavior of Open Addressing Hash Functions." Graduated: May 2003.
12. Steve Verzi. Dissertation: "Extending the Generalization Capabilities of ARTMAP-based Networks." Graduated: Dec. 2002 (Computer Science).
13. Brad Smith. Dissertation: "An Exponential Open Hash Function Based on Dynamical Systems Theory." Graduated: May 1997.
14. James Howse. Dissertation: "Gradient and Hamiltonian Dynamics: Some Applications to Neural Network Analysis and System Identification." Graduated: Dec. 1995.

M.S. Students — (Thesis or Project option, Major Professor):

1. Jarred Kozlick, in progress.
2. Kevin Warne, in progress.
3. Michael Hickman, in progress.
4. Michael Darling, in progress.
5. Wisam Al-Doroubi, in progress.
6. Vinaya Bharadwaj Ganapavarapu. "Designing and Implementing a Data Warehouse using Dimensional Modeling." Graduation: May 2014.
7. Jeff Wigdahl. "Assessment of Curriculum Graphs with Respect to Student Flow and Graduation Rates." Graduation: Dec. 2013.

8. Uday Bhaskar Kadaboina. "UNM Academic Program Review." Graduation: Aug. 2013.
9. Ravi K. Kadaboina. "An Agent-based Framework for Sharing Personal Health Information." Graduation: May 2011.
10. Aswin Yamuzala Venkata, "Rights Management over Web Mashups." Graduation: July 2010.
11. Viswanath Nandina, "A More Robust Ant Colony Learning Algorithm: With Application to the Traveling Salesman Problem." Graduation: July 2010.
12. Harihar Shankar. "Automating the Moderation Process in GEO using Trust Metrics." Graduation: May 2009.
13. Eduardo Castro-Witting. "Recommender Systems based on Collaborative Filtering." Graduation: Dec. 2008.
14. Craig Vineyard. "Enhancing Expert System Intelligent Agents Using Game Theory." Graduation: Aug. 2008.
15. Curtis Hrncir. "Agent Decision Making in DRM Architectures". Graduation: Aug. 2007.
16. Peter M. Oelschlaeger. "Cooperative Strategies for Pairwise Secure Communication Channels in Sensor Networks." Graduation: Aug. 2007.
17. Dinesh Dhanekula. "Content Spreading in Peer-to-peer Networks." Graduation: Dec. 2006.
18. Ryan Custer. Thesis: "A Rights Expression Language Extension for Classified Information." Graduation: Aug. 2006 (Computer Science).
19. Alexandre Franco. "Application of Pattern Classification to Concrete Analysis." Graduation: Dec. 2005.
20. Markin Demsey. Thesis: "Analysis of Robust Image Hashing Mechanisms." Graduation: Dec. 2005.
21. Pramod Jamkhedkar. Thesis: "A Framework for DRM as a Layered System." Graduated: May 2005 (Computer Science).
22. Gregg Whitford. Thesis: "A General Model for Mobile Radio Link Simulation." Graduated: May 2003.
23. Ying Ding. Thesis: "Improving Detector Performance in Watermarking Systems Using RBF Neural Networks." Graduated: Dec. 2002.
24. Yunlong Yang. Thesis: "The Effects of Watermarking on Satellite Image Classification." Graduated: Dec. 2001.
25. Carlos Pizano. Thesis: "Deconstructing Digital Image Watermarks." Graduated: May 2000.
26. Lawrence Irwin. Thesis: "The Robustness of Watermarking in Digital Images." Graduated: May 1998.
27. Rich Hunt. Thesis: "Multiple Move Dynamic Load Balancing Algorithms." Graduated: May 1995.
28. Diane Verner. Thesis: "Development of Generic Field Classes for Finite Element and Finite Difference Problems." Graduated: May 1993.

Undergraduate Students:

1. Elias Lopez, 2013-present.
2. Athena Avalos, Undergraduate Research, 2012.
3. Michael Hickman, Undergraduate Research, 2011-2013.
4. Nathan Dautenhahn, Honors Study, 2008.
5. Craig Vineyard, Honors Study, 2006.
6. Mandenge Mandenge, McNair Scholar Program, 2004.
7. Curtis Hrcir, Honors Study, 2003.

Funded Research

Total Funding: \$5,015,817

- DoD (Air Force) STTR, Phase II, "Nublu: Assured Information Sharing in Clouds," Sept. 2013–Apr. 2015, \$337,500.
- NSF CyberCorps Scholarship for Service Program, "UNM Information Assurance Scholarship for Service Program," Jan. 2013–Dec. 2017, \$1,675,425.
- DoD (Navy) STTR, Phase II, "ASW Find-To-Forecast" in collaboration with Modus Operandi, Inc., Indialantic, FL, \$450,000 (awarded 2012).
- DoD (Air Force) STTR, Phase I, "Nublu: Assured Information Sharing in Clouds," March 2011–Nov. 2012, \$50,000.
- NSF Transforming Undergraduate Education (TUES) Program, "A Model for Online Cross-Institutional STEM Course Offering and Support Services in New Mexico," in collaboration with Central New Mexico Community College (CNM) and Northern New Mexico College (NNMC), Aug. 2011–Aug. 2013, \$247,100.
- DoD (Navy) STTR, Phase I and Phase I Option, "ASW Find-To-Forecast" in collaboration with Modus Operandi, Inc., Indialantic, FL, Oct. 2011–Nov. 2012, \$60,000.
- DoD (Air Force) SBIR, Phase II, "SMASHUP: A Formal Framework For Secure Mashups" in collaboration with Modus Operandi, Inc., Indialantic, FL, May 2011–June 2013, \$250,000.
- DoD (Air Force) SBIR, Phase I, "SMASHUP: A Formal Framework For Secure Mashups" in collaboration with Modus Operandi, Inc., Indialantic, FL , Mar. 2010–Dec. 2010, \$33,000.
- DoD (Army) STTR, Phase II, "Military Surgical Information System", in collaboration with Moberg Research, Ambler PA, Aug. 2008–July 2010, \$89,880.
- DoD (Air Force) SBIR, Phase I, "Green Wave: Integrating Subjective Trust into Networked Infrastructures", in collaboration with Modus Operandi, Inc., Indialantic, FL , Jul. 2008–Jan. 2009, \$33,000.
- NSF Future Internet Design (FIND) Program, "Collaborative Research: Transient Network Architecture", Co-principal Investigators: C.T. Abdallah, G.L. Heileman and W. Shu, Aug. 2006–July 2008. \$240,000.

- AFOSR STTR (with NumerEx Corp.), "User-safe Virtual Laboratory Environment for High Voltage Radiation Source Experiments", Sept. 2004–Mar. 2005. \$35,000.
- AFRL, "Network Survivability", Co-Principal Investigators: C. Christodoulou, C.T. Abdallah, G.L. Heileman, and M. Hayat, 2004. \$20,000.
- Sandia National Laboratories "Wireless Sensor Networks", Co-Principal Investigators: C.T. Abdallah and G.L. Heileman, 2004. \$32,000.
- Honeywell-KCP, "Machine Intelligence and Simulation Applications", 2004. \$95,248.
- CIRT University Research Labs, University of New Mexico, 2004,
-IPTV Study, Grad. student support, \$5400,
-VoIP Study, Grad. student support, \$5400.
- DARPA Next Generation Internet Grant, under subcontract from the Albuquerque High Performance Computing Center, "Simulation over NGI infrastructure," 2000. \$75,000.
- Boeing Computer Services, "Intelligent Monitoring and Fault Detection", Phase IV, Co-Principal Investigators: T.P. Caudell, G.L. Heileman and C.T. Abdallah, 1999. \$20,000.
- DARPA Next Generation Internet Grant, under subcontract from the Albuquerque High Performance Computing Center, "Wireless Networking", Co-principal Investigators: C.T. Abdallah, and G.L. Heileman, 1999. \$100,000.
- Albuquerque High Performance Computing Center, "UML Workshops and HLA Simulation Development," 1999. \$36,106.
- Maui High Performance Computing Center, "Refinement of the AN/TRC-170 Model into a Standalone Siting and Performance Prediction Tool," G.L. Heileman, PI and E. Schamiloglu, Co-PI, 1999. \$43,000.
- Boeing Computer Services, "Intelligent Monitoring and Fault Detection", Phase III, Co-Principal Investigators: T.P. Caudell, G.L. Heileman and C.T. Abdallah, 1998. \$25,000.
- DARPA, under subcontract from the Maui High Performance Computing Center, "Troposcatter Radiowave Propagation Link," G.L. Heileman, PI and E. Schamiloglu, Co-PI, 1998. \$41,840.
- Boeing Computer Services, "Intelligent Monitoring and Fault Detection", Phase II, Co-Principal Investigators: T.P. Caudell, G.L. Heileman and C.T. Abdallah, 1997. \$45,000.
- Boeing Computer Services, "Intelligent Monitoring and Fault Detection", Phase I, Co-Principal Investigators: T.P. Caudell, G.L. Heileman and C.T. Abdallah, 1996. \$30,000.
- Boeing Computer Services, "Analysis of the Dynamical Properties of ART Networks", Phase IV, Co-Principal Investigators: G.L. Heileman, C.T. Abdallah and T.P. Caudell, 1994. \$55,000.
- Chadwick-Helmuth Company, "Intelligent Health Assessment for Rotorcraft Machines," Co-principal investigator: C.T. Abdallah, G.L. Heileman and D. Hush, 1995. \$44,000.
- Los Alamos National Laboratory, "Summer 1995 Computational Science Workshop," Co-principal investigator: G.L. Heileman and C.T. Abdallah, 1995. \$54,144.
- Boeing Computer Services, "Analysis of the Dynamical Properties of ART Networks", Phase III, Co-Principal Investigators: G.L. Heileman, C.T. Abdallah and T.P. Caudell, 1994. \$60,000.

- Los Alamos National Laboratory, "National Information Infrastructure Workshop," Co-Principal Investigators: T. Caudell, G.L. Heileman, D. Hush, and C.T. Abdallah, 1994. \$114,875.
- Los Alamos National Laboratory, "Summer 1994 National Information Infrastructure Workshop," Co-Principal Investigators: G.L. Heileman, D. Hush, T.P. Caudell, and C.T. Abdallah, 1994. \$120,740.
- Sandia National Laboratories Div. 1434, "Shock Wave Physics Simulation on Massively Parallel MIMD Architectures," 1992–94. \$98,048.
- Boeing Computer Services, "Analysis of the Dynamical Properties of ART Networks", Phase II, Co-Principal Investigators: G.L. Heileman, C.T. Abdallah and T.P. Caudell, 1993. \$96,515.
- Boeing Computer Services, "Analysis of the Dynamical Properties of ART Networks", Phase I, Co-Principal Investigators: G.L. Heileman and C.T. Abdallah, 1992. \$33,194.
- Sandia National Laboratories Div. 1434, "Porting Shock Physics Codes to Massively Parallel Computers," 1992. \$7,019.
- Sandia National Laboratories SURP award, "Neural Network Image Classification Algorithms on Massively Parallel Computers", 1991–93. \$60,000.
- Sandia National Laboratories Div. 9133, "Implementing Neural Network Algorithms on the Connection Machine," 1991. \$16,474.
- Technological Research and Development Authority (TRDA), Melbourne, FL, "Development of a Simulation System for Modeling Ground Processing at KSC in Support of Space Shuttle and Derived Vehicle Support Programs," one of 2 co-principal investigators, 1991. \$53,409. Matching Funds: Rockwell International, Advanced Programs Office, KSC, FL. \$30,000.
- State of Florida High Technology and Industry Council's Applied Research Grants Program. "A Neural Network-Based Adaptive Sensor Array System," one of 5 co-principal investigators, 1990–1991. \$20,000.
Matching Funds: Martin Marietta Electronic Systems, Orlando, FL. \$10,000.
- State of Florida High Technology and Industry Council's Applied Research Grants Program. "Software Tools for Parallel Implementation of Neural Network Models," one of 3 co-principal investigators, 1990–1991. \$20,000.
Matching Funds: Martin Marietta Electronic Systems, Orlando, FL. \$10,000.

Patents

- Method and Apparatus for Securing Video Images, United States Patent and Trademark Office, Patent #6,731,756, May 2004.
- System and Methods for Usage Management in Multi-Level Security Networks, U.S. Patent Application Serial Number: 13/871,250, submitted on /26/2013.
- Rights Calculus, U.S. Patent Application Serial Number: 13/510,088, submitted on 11/16/2009.
- The DRM Game, U.S. Patent Application Serial Number: 12/589,733, submitted on 10/18/2007.

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel in the order listed on Form Page 2.
Photocopy this page or follow this format for each person.

NAME	POSITION TITLE
Gregory L. Heileman, Ph.D.	Professor & Associate Chair (Director of Undergraduate Programs) Department of Electrical & Computer Engineering University of New Mexico

EDUCATION/TRAINING (*Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.*)

INSTITUTION AND LOCATION	DEGREE (if applicable)	YEAR(s)	FIELD OF STUDY
Wake Forest University; Winston-Salem, NC	B.A.	1979-1982	Biology
University of North Carolina; Chapel-Hill, NC	M.S.	1984-1986	Biomed. Eng. & Mathematic
University of Central Florida; Orlando, FL	Ph.D.	1986-1989	Computer Engineering

RESEARCH AND PROFESSIONAL EXPERIENCE: Concluding with present position, list, in chronological order, previous employment, experience, and honors. Include present membership on any Federal Government public advisory committee. List, in chronological order, the titles, all authors, and complete references to all publications during the past three years and to representative earlier publications pertinent to this application. If the list of publications in the last three years exceeds two pages, select the most pertinent publications. **DO NOT EXCEED TWO PAGES.**

- A. Positions and Honors.** List in chronological order previous positions, concluding with your present position. List any honors. Include present membership on any Federal Government public advisory committee.

Positions:

8/84-12/84	Research Assistant, Department of Biomedical Engineering and Mathematics, University of North Carolina, Chapel Hill, NC.
1/85-10/86	Research Engineer, Isotechnologies Inc., Carrboro, NC.
8/86-8/89	Research and Teaching Assistant, Department of Computer Engineering, University of Central Florida, Orlando, FL.
8/88-8/89	Research Assistant, Department of Electrical Engineering, University of Central Florida, Orlando, FL.
8/89-8/90	Visiting Assistant Professor, Department of Computer Engineering, University of Central Florida, Orlando, FL.
8/90-6/96	Assistant Professor, Department of Electrical and Computer Engineering, University of New Mexico, Albuquerque, NM.
6/96-6/02	Associate Professor, Department of Electrical and Computer Engineering, University of New Mexico, Albuquerque, NM.
6/02-Present	Professor, Department of Electrical and Computer Engineering, University of New Mexico, Albuquerque, NM.
8/04-Present	Associate Chair & Director of Undergraduate Program, Department of Electrical & Computer Engineering, University of New Mexico, Albuquerque, NM.

Honors:

1992:	Associated Western Universities-Department of Energy (AWU-DOE) Faculty Fellowship
1995:	University of New Mexico, School of Engineering junior faculty teacher of the year award
2000:	University of New Mexico, Department of Electrical & Computer Engineering Distinguished Teacher Award.
2001:	University of New Mexico, Department of Electrical & Computer Engineering Lawton-Ellis Award in recognition of exemplary teaching and service to the department.
2005-2008:	University of New Mexico, Department of Electrical & Computer Engineering, Gardner-Zemke Professorship in Teaching.
2009:	IEEE Albuquerque Section, Outstanding Educator Award.
2010:	University of New Mexico, School of Engineering, Outstanding Teacher Award.

B. Selected peer-reviewed publications (in chronological order). Do not include publications submitted or in preparation.

(Publications selected from more than 100 peer-reviewed publications)

1. S. J. Verzi, G. L. Heileman, M. Georgopoulos, and M. J. Healy. Rademacher penalization applied to fuzzy ARTMAP and boosted ARTMAP. Proceeding of the *INNS-IEEE International Joint Conference on Neural Networks*, pp. 1191-1196, Washington, DC, July, 2001.
